GARDEN MACHINERY CATALOGUE

SHANGHAI NEWTOP MACHINERY CO.,LTD.

Add: 9/F B3, No.1599 Xinqinqiao Road, IBC(International Business Center), Pudong Shanghai, China

Tel/Whatsapp: +86-13636521556 Website: www.newtopools.com

E-mail: service@newtop.com.cn

Provide Professional and Integrated Solution to Garden Machinery

At NEWTOP, we spent twenty years in constantly looking for ways to deliver reliable and powerful gasoline machines. Our only aim is to make gardening work easier and more enjoyable.

With years' development, our company has reached an annual capacity of 500,000 units of machines . Up to now, we have established the CNC AL-MG processing center, the injection Mould Center and the Testing Center which include emission testing equipments, gas composition analyzer, magneto testing desk, metal composition analyzer, hardness tester etc.

The adoption of these advanced facilities from America, Germany and Japan enables us to supply top quality machines to customers all over the world with high efficiency. Our complete testing equipments, strict QA procedures and professional engineers ensure the reliability and safety of our machines. Our equipments and technology control standards have reached the internationally advanced level. Our products have passed CE, GS, EURO V , EPA certification, and our company is also certified with ISO9001-2000 standards.

All the staff in the company are doing their job with our faith“Customers and End Users are the Center”, including our experienced service team. With twenty years experience in exporting, they are responsive to our customers' request and efficient in solving possible problems during the whole process of delivery. Our excellent pre-and after-sales service ensures the fast and safe delivery of your goods.

We are pleased to show you our latest generation of products with this catalogue. The thing that every product has in common is to make your work easier, just be happy with us and enjoy browsing through our new catalogue.

Values

Achieve a win-win cooperation through integrity and honesty;
Gather people with dreams to seek for excellence.

Mission

Make garden life more enjoyable by providing more applicable and eco-friendly machines.

Working Style

We work seriously, meticulously and efficiently. We focus on quality and are loyal to our duties.

Vision

Create unique values for our customers;
Make Newtop a prestigious and first-class enterprise.

Enterprise Certification

Our Team

Easiness, convenience and efficiency

are our constant pursuit in quality.
Consideration, professionalism and your satisfaction
are our persistent principles in offering service.

You might just see our good quality products.
You might just enjoy our high level service.
However, you might not yet have discovered our determination.
You might not yet have known that we put our

heart and soul on every products.
We chase the excellence of every detail of our products to meet your gardening design demands.
We make an effort in every link of our

services to make you feel our friendly concern.
Because, we know what you really need.

1998
Exported to African markets such as Nigeria Cameroon.

2003
Further expanded African markets in Ghana, South Africa and developed the Indonesian market.

2005
Successfully developed Belarus, Russian markets in Eastern Europe and Thailand, Cambodia, Vietnam markets in Southeast Asia.

2007
Started supplying to India Brazil, Paraguay markets.

2009
Entered Colombia, Peru, Chile markets and successfully developed Dubai, South Korea, Poland, United Kingdom, Ukraine, Bulgaria and Greek markets.

2011
Started supplying to Austria, and other markets.

2016
Expanded markets to Central American countries like Guatemala, Costa Rica, Honduras.

2017
Entered Venezuela market and started supplying to Papua New Guinea, Fiji etc.

2018
Started developing East African markets and entered markets of Kenya, Uganda, Tanzania etc.

2019
Opened up markets in Ecuador, Bolivia, Philippines, Pakistan etc.

2020
Set up overseas branches in nine countries (or regions) including Panama, Guatemala, and Colombia etc. in South America, promoting our own brands and establish overseas warehouses.

2021
Committing to further improving product quality, expanding brand awareness, and building NEWTOP into an international enterprise.

2022
In 2022, we expanded the Eastern European market and successfully signed agreements with agents in Poland, Romania and other countries to sell chain saws and brush cutters with Euro V emissions.

MILESTONES

EXHIBITION

Customer Remarks:

Cooperating with NEWTOP is a pleasant experience. They have strict quality control, and advanced assembly lines, strict inspection before delivery and professional after-sales service team. I have visited their head quarter in Shanghai, and was

impressed by their enthusiasm, sincerity and spirit of striving for perfection. The efficient management and strict process in their factory convinced me that products of NEWTOP are reliable. With strict quality control each part is flawless and assembled quickly and accurately,

each machine is perfectly treated. I have cooperated with NEWTOP for years, their assured quality, in time delivery and great aftersales service make me feel relaxed and comfortable. Shanghai NEWTOP is trustworthy.

GASOLINE CHAINSAW

**PROFESSIONAL CHAINSAW
NT7200**

Heavy duty chainsaw with fuel-efficient engine. Satisfying scavenging structure, emissions conform to EU V standard. Ergonomically improved handles reduce fatigue. Ideal for working with medium to large strength wood.

72.5CC Displacement

3.6KW Rated Power

6.5KG Dry Weight

WALBRO IGNITION COIL

Imported Walbro ignition coil, long lifespan, without risk of flameout.

HIGH QUALITY CRANKSHAFT

20CrMo material, TAIWAN bearing inside, forged three-piece crankshaft for maximum durability for the toughest applications.

WALBRO CARBURETOR

Imported WALBRO carburetor, stable and continuous output of power.

PROFESSIONAL TEA PICKING MACHINE

NTTH260

The NEWTOP NTTH260 handheld tea plucker is mainly used for tea picking in mountain, hilly, plain and other terrain. It is produced with international advanced technology. It has the advantages of low noise, large air volume, stable quality and high production efficiency. It is an ideal machine for tea picking.
